Hi Marianne,

During our call last week, your clients mentioned documentation that they had and were willing to provide to us. Below is a list of things that Jonathan Stein requested. You mentioned that you may have additional items; please do include anything else you would like us to review.

- Information related to water quality concerns and related pictures and measurements, etc.
  - Independent water testing done around 2003 – water was running off landfill across the roadway
  - Other assessments of waterways, including uses of waterway for uses other than drinking (agricultural, recreational, etc.)
- Mid-South Testing report from August/September 2000 (or 2004). Records reportedly indicated Ar concerns.
- Methane gas information/records indicating exceedances.
- Eminent domain communications/information related to the roadway modifications.
- Photographs (we believe both Ex. 6 Personal Privacy (PP) mentioned photos)

Thanks very much,
